

Home of the Fly-A-Ways R/C Club

October 2006

**The
Inside Loop**

Safety is our most important Product!

.Preflight Safety inspections are a must. The inspectors found several planes at the G.A.M.E. event in Turner that were not airworthy.
Safety Inspections pay **BIG DIVIDENDS**

G.A.M.E

**Giant Aircraft Modeling Enthusiasts
September 9th and 10th
Photos and Clips on the Web in the
photo section, go to:
www.flyaways.org.**

This was an IMAA Event sponsored by the Salem R/C Pilots held at their field in Turner, Oregon. First, thanks to the Salem R/C Pilots for the sponsorship and thanks to W. L. Pete Melin, CD of the Eight Annual G.A.M.E. Event. The field has a super long runway which is great for dead sticks even down wind. The weather was great and every one had a super time. A Tiger Moth duo put on a formation flying demo that was outstanding. So next year join us at the G.A.M.E show for a couple of days of relaxed flying at a great field and enjoy the company of a great group of RC Pilots.

Cub Nuts

September 23rd

Photos and Clips on the Web in the photo section. See previous column for link.

This was a fun fly event put together by Jim Riggle CD. The event was held at Grant Sharp's Green Acers and sponsored by the Molalla Radio Control Association. The event theme is dedicated to "Remembering America's Heroes" a group of Veterans Mr. Riggle is a member of. The groups purpose is to insure America's Youth remembers the sacrifices made to insure their freedom.

Event Highlights:

The Orange County Choppers Cub flying a 30" x 50" American Flag.

13 Cubs in the air at one time.

Cubs flying a timed pattern course.

Visit to the field by an Ultra -light, landing, take off and several low passes.

Full scale Cubs making low fly-bys.

This is one of the best events I have attended and a great time was had by all.

Next Meeting

October 16th

**No Board Meeting
General Meeting 7:00 PM**

Hey Guys, this is Squirrel Happy hour. I get to drink as much as I can hold, no charge. The only problem is Barn Cat sneaking through the Sunflower patch messing up the good times. See ya all.... Sq Earl Jr.

DUSTERS Fun Fly Sunday 24th of September, 2006.

Thanks to the Dusters Officers, Directors and Members for putting on a great event for all of us.

Some of the highlights:

Tony Thomasian put on a great exhibition of 3D moves with both his Extra 30% 260 and Extra 40% 300. His rolling take-off and inverted departure with the Extra 260 is really confusing to we mere mortals. Tony must be on a first name basis with Aero Donnic the mythical Greek God of Aerobatics.

There is a video being passed around showing some weird looking pilots emerging from the corn field. Evidently just like Field of Dreams, if you build it they will come.

Mike Ripley put on a sky diving show with his Skydiver. Cliff Pemberton got to fly the Telemaster drop plane.

Jim Riggle put on a glider towing show with his modified Cub Glider. Very interesting flying the glider over all those corn stalks.

I'm not releasing names, however there were some pole walks into the corn field to retrieve mishaps. The "pole" sticks up above the corn so a cell phone can be used to guide the retrieval team to the last known position of the plane. Now this is a use of cell phone minutes that makes sense.

**It all makes sense.
The bottom wing points the way into the Corn
The top wing points the way out of the Corn.**

Squirrel Awareness Week By Sq Earl Jr.

Squirrel Awareness Week began Sunday, October 1st.

In honor of all my cousins let me enlighten you with some Squirrel data:

Squirrels belong to the order Rodentia: there are 365 species. So just stop with this tree rat character assassination.

Gray Squirrels are called "living fossils" because they haven't changed much in 37 million years. You may have noticed I'm a red squirrel and I'm super fast so when I'm moving out just say "Did you see that Red Streak."

When we (Squirrels that is) get scarred we dart back and forth to confuse our enemies. However tipsy Soccer Moms driving home from wine tasting events just keep running over us with their mini-vans, hell, most of them can't see anyway.
